## OBJECTIVE

Seeking a MERN Stack Developer role to build responsive, scalable web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Passionate about creating intuitive UI/UX with modern tools, integrating robust APIs, and contributing to collaborative, high-performance teams.

## EXPERIENCE

20 January 2024 - August 2025 **Mern Stack Developer**  
InvexTech Full Stack Developer (1.5 Years)  
Developed responsive web apps with React.js, Next.js, Vue.js, and built secure REST APIs using Node.js, Express.js, and MongoDB. Focused on reusable components, authentication (JWT), CRUD operations, and seamless UI/UX.

## EDUCATION

2025 **BSCS**  
University of Okara  
3.4

## PROJECTS

**Chatting app**  
Real-time MERN chat app with JWT auth, Socket.io messaging, role-based access, and responsive UI.

**E commerce Website (Web)**  
<https://ecomrence-bszk.vercel.app/>  
Developed a responsive front-end in React.js and Tailwind with product listings, cart, search/filter, and reusable components for a smooth shopping experience.

**CRM Project**  
Worked on front-end with Next.js, building responsive UI, dynamic routing, and API integrations for user management and data visualization. Focused on clean design, performance, and team collaboration.

**Government Case Management Portal**  
Built frontend with React.js, Next.js, Tailwind CSS, integrating REST APIs for legal case management with a responsive and secure UI.

**Portfolio Website**  
<https://zeeshan-portfolio-beige-nine.vercel.app/>

React.js, Tailwind CSS  
Personal portfolio showcasing skills and projects with a mobile-first responsive design.

**Blogging Platform**  
React, Node.js, Express, MongoDB  
Developed user dashboard, blog posting system, and comments section. Implemented JWT-based authentication.
